

# ALEXANDRA JARA

FRONT-END DEVELOPER

## ABOUT ME

Changes and challenges do not scare me, and as Grace Hopper said, "I've always been more interested in the future than in the past".

My name is Alexandra Jara and I'm junior front end developer. I think the future is coded, and I want to be writting it, so in June 2019 I started Adalab's front end development bootcamp to get the knowlegde I needed to start doing it.

My profesional background includes sales and customer support, wich taught me to enjoy teamwork. I'm also a vet nurse, and working in a hospital I learnt to be organized and make clear priority tasks.

## SKILLS

HTML5

CSS3

FLEXBOX  
& GRID

SASS

GIT

JAVASCRIPT

REACT

GULP

NPM

SCRUM

English - B2 | Spanish - Native

## EDUCATION

### Front-end web development bootcamp

ADALAB || 2019

- HTML5, CSS3, Flexbox, Grid, SASS, Bootstrap. Responsive design and mobile first. Simple animations. Layout components.
- JavaScript ES6, create simple SPAs with React.
- Version control using Git.
- Agile mindset (SCRUM).
- Developer tools: Visual Studio Code, Gulp, Terminal.
- Communication tools: Github, Trello, Slack.

### Veterinary Assistant

Escuela del Henares || 2018

### Image Lab Technician

IES C.M.R. Valcárcel || 2014

## PROJECTS

### TravelWallet

Open Source project proposed by the startup Triporate. Web app that allows you to view boarding passes in PKPASS format. This improves the UX by offering a multi-device option to avoid third-party downloads.

<https://github.com/alexandrajaramz/triporate-travel-wallet>

### React - APC

Refactoring and migration to React JS of inherited code. Use of components, state and libraries like React Router.

<https://github.com/alexandrajaramz/g-m3-actreact>

### Awesome profile-cards

Web app to create digital contact cards, developed in JavaScript ES6, managing events and Local Storage. HTML5, CSS3 & SASS.

<https://github.com/alexandrajaramz/g-m2-the-scripters>

### FiveDrops

Corporate responsive web, created using HTML5, CSS3 & SASS, with Flexbox and Grid, mobile first approach.
